

## Words of Analysis:

### DO USE:

- This quote establishes that...
- This quote provides...
- The example proves...
- To further explain...
- The source concludes...
- This quote shows that...(be careful: use like demonstrates)
- This example suggests...
- The example demonstrates...
- This example reveals...
- The information exemplifies...
- From this example/source/information it can be determined that...
- This material supports the notion that...
- The author uses/explains/makes clear/develops...
- This contrasts with...
- This means...

### DON'T USE:

- This example/quote says...
- This information states...
- 

### KEY WORDS:

- |                                       |                 |                                 |
|---------------------------------------|-----------------|---------------------------------|
| • Nevertheless                        | • Rather        | • Coincidentally                |
| • Although                            | • Still         | • In spite of                   |
| • Thus                                | • Even though   | • In response to                |
| • However                             | • All in all    | • In that                       |
| • Consequently                        | • Similarly     | • Incidentally                  |
| • Therefore                           | • Because       | • Which yielded                 |
| • Ergo                                | • Yet           | • Concurrently                  |
| • Subsequently                        | • Heretofore    | • Assuming that                 |
| • Also                                | • Despite       | • The following can<br>be drawn |
| • Additionally                        | • On account of | • In order to                   |
| • But (yes)                           | • Due to        | • Conversely                    |
| • On the other<br>hand/as a result of | • So            | • Wherein                       |
| • In contrast                         | • Eventually    | • Thereby                       |
| • (Hence) forth                       | • Nonetheless   | • Not only                      |
| • Moreover                            | • Since         | • In stark contrast to          |
|                                       | • Whereas       |                                 |
