1. Select your topic.

2. Search for pictures that relate to the topic.

3. Create a separate slide for each picture.

4. On these slides, add a corresponding text box of about 2-3 sentences to explain each photo.

5. Copy and paste all these pictures and text boxes into a blank slide, and then arrange them so that everything can be seen clearly.

6. One at a time select each text box, select animations and then select fly in, proceed to do this for each text box.

7. The final project should be one slide with the images and when you click each description should be added.
